

DARWIN LUQUE

Lead Software Engineer | Full-Stack

San Pedro Sula, Honduras · Open to relocation (Canada / US) | +504 3325-1869 | darwin.luque.98@gmail.com
darwinluque.me | github.com/darwin-luque | linkedin.com/in/darwin-luque

Lead full-stack engineer with over five years of experience shipping production software for international clients such as Wendy's, Takeda, and Stellantis. Progressed from developer to Tech Lead and then Engineering Manager at CODE Exitos, and from Senior to Lead Engineer within fourteen months at FortressOS. Known for pairing hands-on delivery with team leadership and a measurable record of raising delivery quality, velocity, and reliability.

EXPERIENCE

Lead Software Engineer

FortressOS Technologies (Remote) · Jun 2026 – Present

Software Engineer (Mar 2025 – Jun 2026); promoted within 14 months

- Lead a cross-functional team of 5 developers and 2 QA engineers, and have raised sprint delivery completion from **86% to 94%** since taking over the role
- Increased average team velocity from **6.5 to 7.8 points per sprint** against a company target of 8
- Personally average **8.3 points per sprint at a 96% completion rate** across five shipped internal projects
- Act as the bridge between product and engineering, owning sprint planning, live stakeholder demos, and requirements translation

Software Engineering Manager

CODE Exitos (San Pedro Sula, Honduras) · Feb 2021 – Mar 2025

Developer → Senior / Tech Lead in 2 years → Manager reporting to the CTO in 3

- Led a team of 12 engineers delivering scalable solutions for clients including Wendy's, Takeda, Stellantis, and Sifera
- Steered a legacy-to-microservices migration that reduced system downtime by **40%**
- Introduced CI/CD pipelines with GitHub Actions and Docker, cutting deployment times by **30%**
- Mentored junior developers and fostered an engineering culture that raised team productivity by **25%**

OPEN SOURCE & PUBLISHED WORK

- @code-exitos/react-native-proxy-client** (npm) — published package in active use
- path-recognition** (npm) — card-recognition library with steady weekly downloads
- nestjs/docs.nestjs.com** — merged documentation contribution (PR #2574)
- Refinement scoring tool** — near-production card evaluation tool

EDUCATION

B.Sc. Mechatronics Engineering

Universidad Tecnológica Centroamericana · Jul 2015 – Dec 2020

- Thesis: emulation of the Deutsch-Jozsa quantum algorithm on FPGA (graduation research)
- Second thesis: CNN-based autonomous navigation retrofit for a physical robot
- Elected President, Mechatronics Engineering Association (2019); Vice-President (2018)
